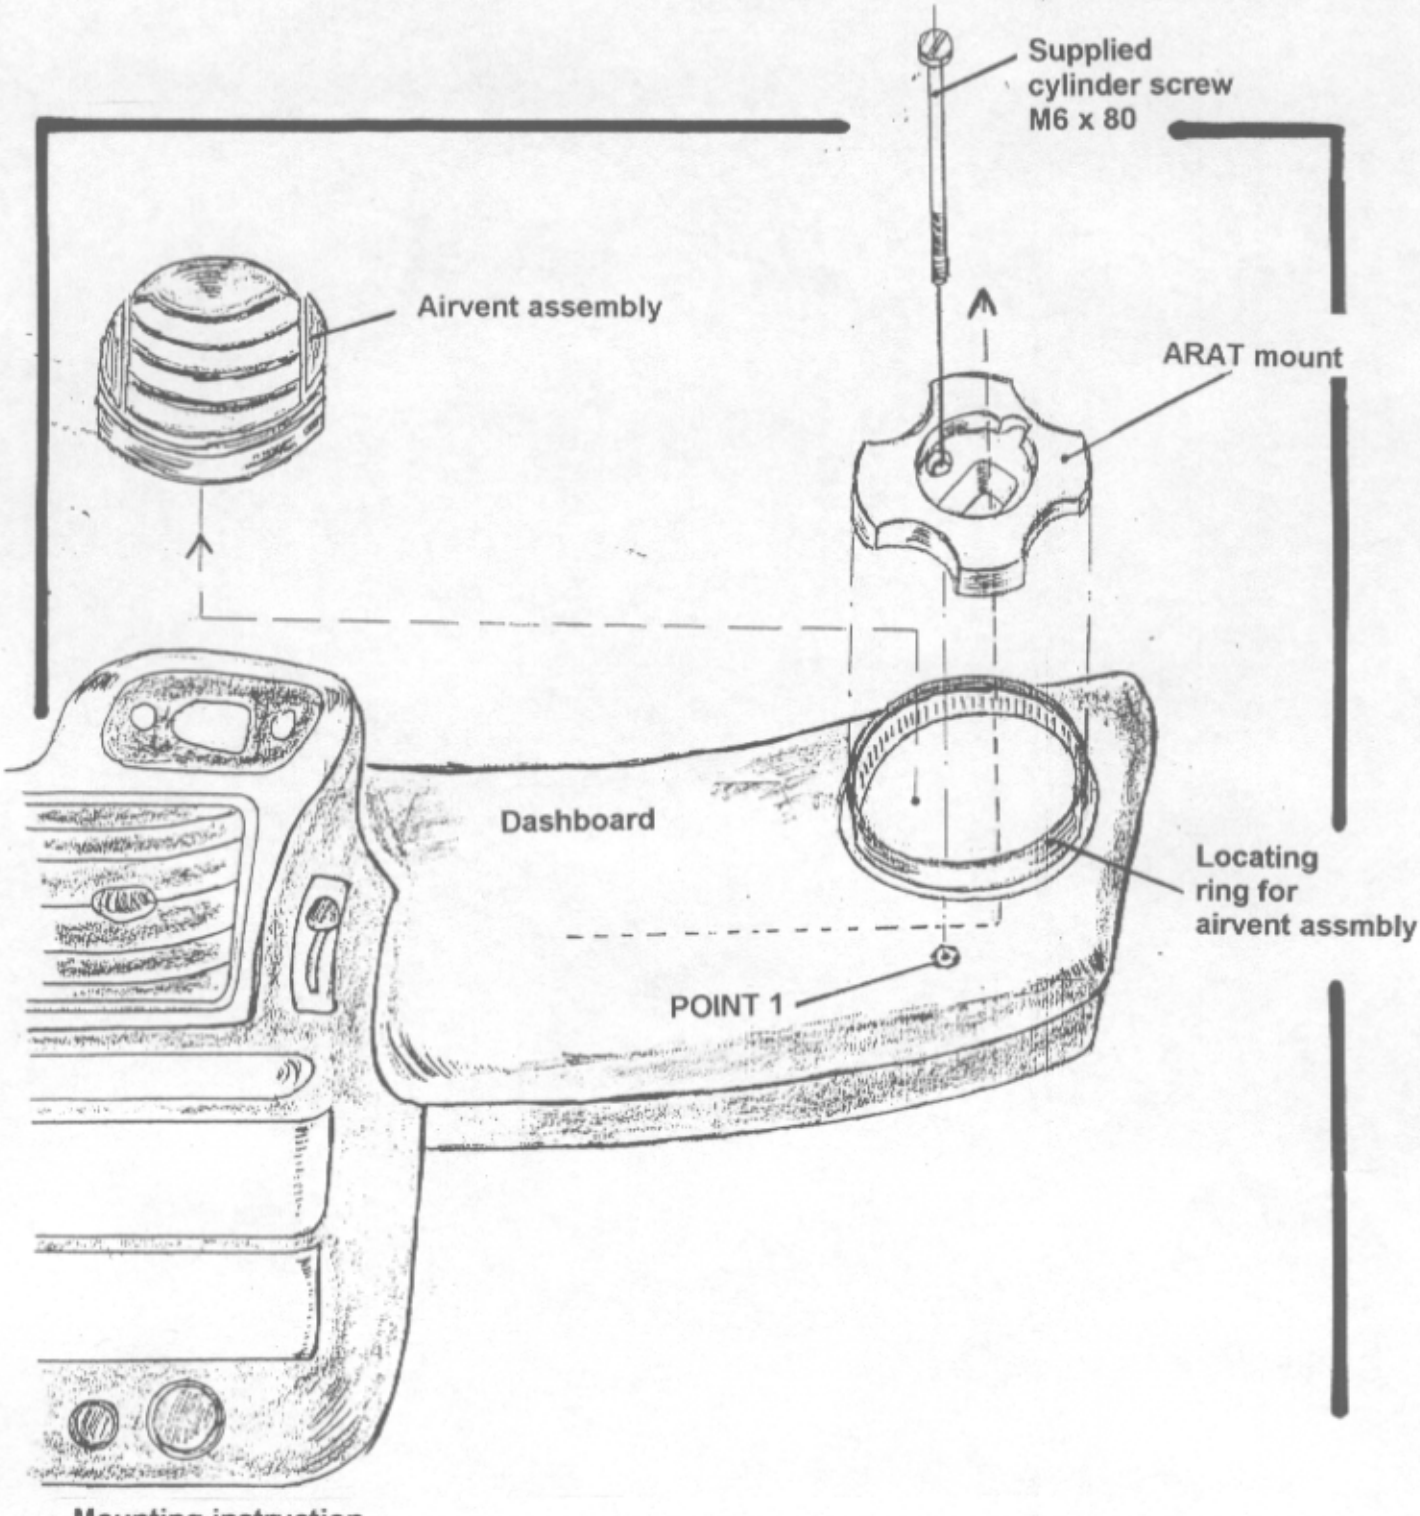
ARAT Navigation mount

Type: Smart
(for LHD cars Right side
for RHD cars Left side)

Part No: NS1268



Mounting instruction

1. Remove the airvent assembly from its locating ring (secured with spring locating clips)
2. Remove the screw at POINT 1
3. Place the ARAT mount into the locating ring, and secure it with the cylinder screw provided, into the hole of the previously removed screw at POINT 1, (be careful not too overtighten the screw into the dashboard)
4. Place the display cable through the dashbaord and via the hole in the ARAT mount
